### **Guidance of the belt promotion test**

Acknowledgement of belt promotion is a member's training turning point and guide point on how to be promoted from the white belt to the black belt. We will award you with a new belt and a certificate once you pass the requirements for training skills and effort. Once you receive your new belt, you will then be more confident and more conscious which will be your guide point for the next stage. As you go to the next stage, it will get more difficult as you take the belt promotion tests and join in the competitions. We hope that you do your best as you target the black belt, slowly and step by step when you join Kyokushin Uganda. Please read this guide very well and prepare for the belt promotion test. Remember that the most important thing is to be devoted and serious in every practice.
